Siddhartha Gairola

E-mail: siddhartha.gairola18@gmail.com

Website: https://sidgairo18.github.io

Education

International Institute of Information Technology, Hyderabad — Hyderabad, India
Dual Degree BTech and MS by Research in CSE — 2014 - 2020
Advisor: Prof. P. J. Narayanan
Thesis: *Image Representations for Style Retrieval, Recognition and Background Replacement Tasks*
CGPA: **8.98 /10**

St. Joseph's Academy — Dehradun, India
Senior Secondary, ISC; Average: **93.6%** — 2012 - 2013
Secondary, ICSE; Average: **95.28%** — 2010 - 2011

Work Experience

Microsoft Research, India - *Research Fellow* — Aug 2020 - Present

· Working on problems in healthcare, computer vision and machine learning.

Microsoft Research, India - *Research Intern* — Jan 2020 - Jul 2020

· Worked on building smartphone based diagnostic solutions for eye diseases using mobile computing, computer vision and machine learning.

Adobe Systems, India - *Research Intern* — Jun 2019 - Jan 2020

· Worked in **Media and Data Science Research** (MDSR) lab with Balaji K and Mayur Hemani.
· Implemented a deep learning model in *Python, PyTorch* to perform **Few-shot Guided Segmentation** on images, beat the SOTA by 6%, published a paper and filed a patent for the same.

IIIT Hyderabad - *Research Assistant* — May 2016 - May 2019

· Research student at the Center for Visual Information and Technology (CVIT)
· Worked with Prof. P. J. Narayanan on problems in computer vision, machine learning and deep learning.

IIIT Hyderabad - *Teaching Assistant* — Aug 2016 - May 2019

· Teaching Assistant for graduate and undergraduate courses - *Digital Logic and Processors, Artificial Intelligence, Digital Image Processing, Computer Vision, and Graphics.*
· The duties involved taking regular tutorials, setting up assignments and conducting evaluations.

Google Summer of Code (GSoC) - *Student Developer* — May 2018 - Aug 2018

· Was accepted as a developer for the Google Summer of Code Program for a 2^{nd} time with Scilab org.
· Implemented a DEMO in C/C++ and Scilab as a working example for the MEX Library in Scilab.

Google Summer of Code (GSoC) - *Student Developer* — May 2017 - Aug 2017

· Was accepted as a developer for the Google Summer of Code Program for the organization Scilab.
· Implemented a C/C++ wrapper for Matlab MEX-API on current API Scilab.

Patents

· **Siddhartha Gairola**, Mayur Hemani, Ayush Chopra, Jonas Dahl, Balaji K. (2020), Improved Similarity Propagation for One-Shot and Few-Shot Image Segmentation **(US 16/906,954)**.

Academic Achievements

- Awarded the **Dean's Research Award** for a paper published at an international conference while in undergraduate, 2018.
- Awarded the **Dean's List Award** for 6 semesters straight for being in top 10% of the class in Monsoon 2015, 2016, 2017 and Spring 2016, 2017, 2018.
- Qualified for the **ACM ICPC Asia Onsite Regionals** twice (2015, 2016).
- **All India Rank 2262** in **JEE Advanced 2014** (**98.5%** percentile among 150,000 students).
- **All India Rank 3856** in **JEE Mains 2014** (**99.7%** percentile among 1.2 million students).

Academic Service

Reviewer: ICLR 2022, IHCI 2021.

Selected Projects

Guided Few-Shot Segmentation: Implemented a deep learning system to perform few-shot image segmentation with guidance propagation using *Python and PyTorch. Monsoon 2019*

Unsupervised Style Learning: Implemented a deep learning model in *Python and PyTorch* to learn robust style representations without supervision. Achieved state-of-the-art results for this task and was accepted as a paper (code). *Spring 2019*

Sketching with Style: Implemented the paper Sketching with Style[b] (*ICCV 2017*) in *PyTorch and Python* (code). *Monsoon 2018*

Movie Genre Classification: Implemented a deep learning model to predict the genres of a movie based on its poster, using *Python and TensorFlow. Monsoon 2017*

*equal contribution

[b] J. Collomosse, T. Bui, M. Wilber, C. Fang, and H. Jin. Sketching with style: Visual search with sketches and aesthetic context. In 2017 IEEE International Conference on Computer Vision (ICCV), 2017.

Wiki-Search Engine: Implementation of an efficient and scalable search engine on Wikipedia dump in *Python*. Retrieve top relevant documents based on input query. Handled field as well as phrase queries. Documents were re-ranked based on 'tf-idf' measure. For fast retrieval used threading and multi-level indexing. *Monsoon 2017*

High Dynamic Range Images: HDR imaging - generating images with a greater range of luminance levels than which can be achieved by taking only a single photograph with a fixed exposure. Using tone mapping, high-boost filtering and bilateral filtering for improvements. *Monsoon 2016*

Tic-tac-toe Bot: Designed an automated agent bot to play the a modified version of tic-tac-toe game. Using a minimax algorithm and alpha-beta pruning. *Spring 2016*

Technical Skills

Working Knowledge	Bash, C/C++, Python, Matlab, Octave, OpenCV, Android-SDK
Software & Tools	GNU/Linux, HTML, CSS, JavaScript, LaTeX, Excel
Deep Learning Frameworks	PyTorch, TensorFlow, Keras, Caffe
Past Experience	Java, OpenGL, WebGL, Django, Web2py
