

SIDDHARTHA GAIROLA

OBH 170, IIIT-H, Gachibowli, Hyderabad 500032
(+91) 900 024 0581 ✧ siddhartha.gairola18@gmail.com

EDUCATION

International Institute of Information Technology, Hyderabad Dual Degree in Computer Science & Engineering (CSE)	<i>2014 - 2019 (expected)</i> Overall GPA: 8.98 /10
St. Joseph's Academy, Dehradun Senior Secondary, ISC	<i>2012 - 2013</i> Percentage: 93.6%
St. Joseph's Academy, Dehradun Secondary, ICSE	<i>2010 - 2011</i> Percentage: 95.28%

WORK EXPERIENCE

IIIT Hyderabad <i>Undergraduate Research</i>	May 2016 - May 2018
<ul style="list-style-type: none">· Honours at Center for Visual Information and Technology.· Working under Prof. P.J. Narayanan in Computer Vision, Machine Learning and Deep Learning.	
IIIT Hyderabad <i>Teaching Assistant</i>	
<ul style="list-style-type: none">· Teaching Assistant for the following courses - Digital Logic and Processors, Artificial Intelligence, Digital Image Processing and Computer Vision during Monsoon 2016, Spring 2017, Monsoon 2017, 2018 and Spring 2018.· The duties involved taking regular tutorials, setting up questions for assignments and conducting evaluations.	
Google Summer of Code <i>Summer Internship</i>	May 2017 - Aug 2017
<ul style="list-style-type: none">· Got accepted as a developer for Google Summer of Code Program 2017 for the organization Scilab.· The goal of the project was to provide a wrapper of Matlab MEX-API on current API Scilab.	
Google Summer of Code <i>Summer Internship</i>	May 2018 - Aug 2018
<ul style="list-style-type: none">· Got accepted as a developer for Google Summer of Code Program 2018 for a 2nd time, organization Scilab.· The goal of the project was to write a DEMO as a working example for the MEX Library in Scilab.	

PUBLICATIONS

- V Kumar, D Khattar, **S Gairola** , Y Kumar Lal, V Varma (2018), "Identifying Clickbait: A Multi-Strategy Approach Using Neural Networks", **The 41st International ACM SIGIR Conference on Research & Development in Information Retrieval**, Pages 1225-1228.
- S Rawat, **S Gairola**, R Shah, PJ Narayanan (2018), "Find Me a Sky: A Data-Driven Method for Color-Consistent Sky Search and Replacement", **International Conference on Multimedia Modeling**, Pages 216-228.

ACADEMIC ACHIEVEMENTS

Awarded the Dean's List Award for 6 semester straight for being in top 10% of the class in Monsoon 2015, Monsoon 2016, Monsoon 2017, Spring 2016, Spring 2017 & Spring 2018.

Was a member of team **Pendulum** which qualified for the **ACM ICPC** regionals in 2015, for the Asia Amritapuri Onsite Regionals.

A member of team **GOAT** which has qualified for the **ACM ICPC** regionals in 2018, for the Asia Amritapuri Onsite Regionals.

All India Rank 2262 in JEE Advanced 2014 (Among 150,000 students who appeared for the exam).

All India Rank 3856 in JEE Mains 2014 (Among 1.2 million students who appeared for the exam).

TECHNICAL SKILLS

Working Knowledge	GNU/Linux, Bash, C/C++(STL), Python, Matlab, Octave, OpenCV
Software & Tools	HTML, CSS, JS, LaTeX, Excel
Deep Learning Frameworks	TensorFlow, Keras, Caffe
Past Experience	Java, OpenGL, WebGL, Django, Web2py

PROJECTS

Hostel Portal: Developed a hostel management portal using python, Web2py framework. *Spring 2015*

Linux C-Shell: A linux like terminal implemented using C language using different concepts like fork, signals, exec, piping. This was part of Operating System (OS) course. *Monsoon 2015*

P2P File Sharing: Developed an application layer file transfer protocol with support for TCP. It included features such a file upload, file download and indexed searching. (Computer Networks course) *Spring 2016*

AI Bot: Designed a computer bot to play the a modified version of Tic-Tac-Toe game. Using a Mini max algorithm and alpha-beta pruning *Spring 2016*

2D Game: A 2 dimensional shooting game developed using OpenGL. *Spring 2016*

3D Game: A 3 dimensional game developed using OpenGL (GLFW library). *Spring 2016*

High Dynamic Range Images: HDR imaging - generating images with a greater range of luminance levels than which can be achieved by taking only a single photograph with a fixed exposure. Using tone mapping, high-boost filtering and bilateral filtering for improvements. *Monsoon 2016*

Wiki-Search Engine: Implementation of an efficient and scalable search engine on Wikipedia dump. Retrieve top relevant documents based on input query. Handled field as well as phrase queries. Documents were re-ranked based on tf-idf measure. For fast retrieval used threading and multi-level indexing. *Monsoon 2017*

PROGRAMMING AND OPEN-SOURCE

Programming: Take part actively in competitive programming contests.

Codechef (handle: sidgairo18)

Codeforces (handle: sidgairo18)

Open-Source: Contribute to open source actively. Have made contributions to open source organizations like **Scilab, LibreOffice and CCExtractor**. (**Github profile** : sidgairo18)
